

Who will vote for Romney?

Who will vote for Mitt Romney?

- Women? He wants to make it hard for them to get contraceptives and favors closing Planned Parenthood clinics.
- African Americans? Republicans tried to take away their voting rights in the 1960s and again this year with voter ID laws.
- Hispanics? The Republicans ripped them apart in the primaries. President Obama appointed the first Hispanic to the Supreme Court.
- Senior citizens? His vice presidential candidate, Paul Ryan, wants to privatize Social Security and Medicare.
- Health insurance recipients? Romney's plan to overturn Obamacare will throw you out if you have a pre-existing condition, change jobs, make you pay when your medicine reaches "the donut hole" and will throw kids under 26 off their parent's health insurance.
- Swing states? Obama could lose Florida, Ohio, North Carolina, Virginia and Iowa, all of which he won before, and still be elected. He needs 270 electoral votes. If he had 355, minus the above, he'd still have 274.

Finally, I will not only vote for Obama again, but will campaign for him again, as would my wife, were she alive. Everyone I've talked to who voted for him will vote for him again as will Pennsylvania, according to G. Terry Madonna's poll.

Joe Biden grew up poor, like Obama. He doesn't have millions in foreign banks, nor has he shipped jobs overseas as has Romney. Joe understands the poor and middle class.
