

A reason we need term limits

This letter is about the political mindset in this country. Let's start at the city level.

All you hear, every time a budget is due, are officials playing the blame game on working people.

For instance, in Lancaster, it is the people who lay their lives on the line daily who are wrong to want a pay increase. They have to bargain for it. Now the politicians, on the other hand, want more and they vote it for themselves.

If you go up the ladder in government, it gets worse. There is a retired state legislator -- Joe Pitts -- who ran for and won a seat in the U.S. Congress.

He built a retirement of \$90,000 per year, then makes another \$174,000 per year being in the Congress, and all his medical bills are paid by the state.

If you read the Sunday News as to how Congress votes, you will see he votes "no" on plans to better the working people who earn a whopping \$25,000 to \$45,000 a year.

This country is to be of the people, by the people and for the people.

So, I am asking that there be term limits on all politicians.

Ken Hartsough, Lancaster

Positive about Regional Med

We would like to put a positive spin on the Lancaster Regional Medical Center. We recently had a hospital experience with them and can say it was all good.

The staff in the Emergency Room and the ICU unit gave the utmost professional care, and we thank each one that had a part in taking care of us and helping my husband to recover.

It is reassuring to know we have skilled doctors, nurses and staff available when medical help is needed.

Nelson and Betty Keperling, Manor Township
