

## More on guns

When was the last time a gun committed a crime? The answer is never. Firearms don't go on trial.

Why do we focus on an object that has no brain or the ability to hurt or kill by itself? Evil people will always do evil things to others. It doesn't matter what they use. If there are no firearms, they will use other mass destructive devices.

We need to educate everyone on gun safety. Just about every firearm used in a killing was either stolen or taken out of a house without the owner's knowledge. No one can take my firearms out of my safe. Only my father and I know the combination.

If people used common sense and would be responsible, these crimes would reduce drastically. There is a word many have forgotten about. Be "responsible."

## Good Samaritans

A very special thank-you to the Good Samaritan who placed an order for Meals on Wheels to be delivered to me as I'm home from the hospital recovering from the flu. The food is very good, and it's two meals a day.

Meals on Wheels is a blessing to the community. The volunteers will be rewarded for their kindness and pleasant personality with stars in their crowns. God bless everyone at Meals on Wheels.
