PUBLISHED COMMENTS

The compliance status of this facility and a copy of this inspection report will be posted on the PA Department of Agriculture website. The follow up has shown there are still rodent droppings on the floor and around some equipment. Discussed with the owner that these need to be disposed of so as to keep track of the status of the rodent treatments. The facility is being treated once every two weeks for rodents. One dead rodent was found on a glue board. Holes have been sealed up in and around the facility. A copy of the inspection report has been provided to the owner Yogesh Lal.
